

dineiro APP
Consumer User Guide v 1.1.3

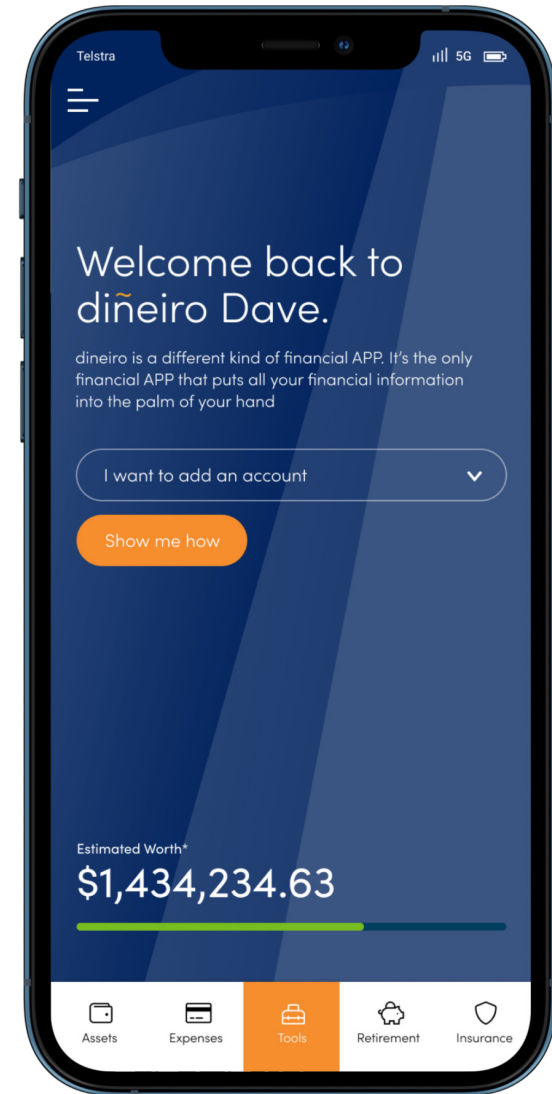

General information.

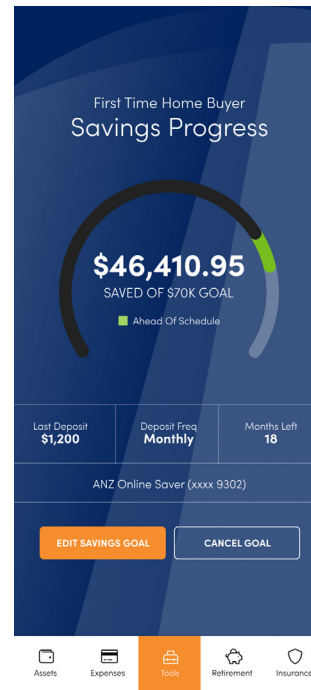

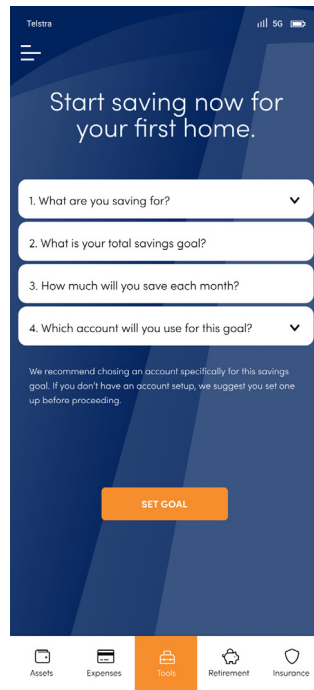

Thank you for downloading diñeiro. Our app will let you connect all of your finances into a single, secure and encrypted app - and let you share your financial data with your broker, advisor or to any email address you like.

This guide is to help you get started saving for a significant purchase like a home deposit.

Be assured that we will never store your bank account login details, no transactions are ever allowed through our app and every part of our app is fully encrypted - all to ensure your protection and security at all times.

Setting a savings goal.

We all have goals in life. We have created a savings goal for your significant purchases to help you get there faster.

Go to the tools section from the footer navigation, select 'set a savings goal for a significant purchase' and answer the four questions on the screen.

Important Note: It is recommended that you setup a unique bank account for this savings goal.

Once you set your goal, you will see your progress screen from then on. This will help you visualise where you are in reaching your goal.

Want to edit your goal? Simply click on the edit button to adjust your savings goal.

In the future we will add the ability to save for multiple goals at the same time.
